## **NAFA ANNOUNCES IMPROVEMENTS TO ITS EUROPEAN CATALOGUE**

NAFA is pleased to announce that we've made the following improvements to the catalogue structure in our European collection. The mink will now be classified as FIVE, FOUR and THREE STAR quality. This new FIVE-STAR classification system will be assigned to our European collection only and is designed to create a more logical structure to the catalogue.

In response to feedback received from our clients, the new FIVE-STAR classification system will be organized in the following manner:

- The cataloguing will start with our VELVET Mink in nap sequence – XSN, SN and SMN.
- It will include VELVET FIVE-STAR and VELVET FOUR-STAR mink and VSL (unlabelled) mink.
- The regular European collection will follow. This collection will comprise mink of MN, MNL and LN naps. It will begin with FIVE-STAR mink and proceed through the FOUR-STAR, THREE-STAR and VSL collections.

Please note that the term VSL will also be used with the North American mink collection. It will replace the term 'unlabelled'. The put-up will be the same as previous years with VSL-A, VSL-B and VSL designations.

On the following page, you will find a sample of the actual sequencing of the mink catalogue

**SAMPLE INDEX**
