

Black NAFA Females Bring Mink Auction to a Close on a High Note

NAFA's February mink auction ended today with one of the best ever assortments of Black NAFA female mink selling at strong prices and 100% clearances. Korea led the competition in today's Black female mink sale in the face of aggressive bidding from China and the other international markets. Demi Wild females followed yesterday's trend of the bigger and higher quality, short nap mink obtaining premium prices while the longer nap and smaller sized mink, once again, experienced easier prices but still at 100% clearance levels.

As the February mink sale comes to a close, NAFA takes great pride in the fact that over the course of the last four days, we have achieved sales results that were not only highly competitive but also truly reflective of the state of the market.
