## Italian Fashion Trade Dominates Western Lynx Cat Sale

NAFA's collection of Western Lynx Cat sold 80%, primarily to Italy with support from Greece and Korea. Larger sizes and clearer colored bellies sold under strong competition with the Italian fashion industry dominating. Flatter sections and commercial qualities had support from Greece but saw resistance in price and clearance.

The Top Lot of Lynx Cat was purchased by FENDI of Rome, Italy for \$900.

The Top Lot of Lynx was purchased by Phil Patterson (For Fur Brokerage) for Randy Richard of Glacier Wear of Maine, United States for \$140.
