## Announcement: Packing Equipment Improvements

NAFA is pleased to announce that it has purchased and is in the process of introducing new packing equipment and mink boxes which will enable us to reduce the volume of each carton by as much as 35%. This new equipment is also being used for coyotes, where again the volume will be reduced by 35% or more, which should result in freight charges of weight only, not weight plus volume. This will represent significant freight cost savings for our customers.

## Buyer Charges: Effective Feb. 1<sup>st</sup>, 2012
