NAFA SELLS RECORD QUANTITIES OF RACCOON & COYOTE

NAFA's second day of wild fur started with a collection of Coyotes that sold at over 80% with some of the better, heavier qualities being withdrawn. This was followed by a record offering of Raccoons where over 436,000 were sold. Wild Mink sold 100% at firm prices while some better quality Otters were withdrawn due to price resistance.

Beavers sold at levels that were firm to recent sales, but buyers were very selective on both size and quality. A large offering of Musquash sold at clearances over 80%, likewise, at firm prices relative to recent sales.

We would like to take this opportunity to thank the international fur trade for its tremendous support this year which has resulted in another record turnover for not only our May sale but for the entire selling season. We wish you all a pleasant summer.
